TEAM ADVANTAGE Certification

Be one of the first leaders, coaches, managers, HRD professionals to be certified!

If you are looking for a *fresh new way* to expand your offerings for teams and engage them to accomplish extraordinary goals, create impact, and recreate how they work together, this training is designed for you. This action learning process accelerates team development to transform how they work and “play” together...and deliver results in four months! By creating a “game” to play with a coach facilitating the process, the team learns what works and what doesn’t. During this certification you will experience the process by playing a simulated game, and learn how to execute each component so you leave with a new way to move teams forward that will impact them long after the experience.

“The outcomes of conducting a 16 game pilot project accelerated goal attainment and produced significant results, leaving a sustainable impact on team leaders and the team members by improving their collaboration, team focus and performance. Team Advantage brings action learning and management by objectives into alignment so that teams are truly transformed.

Anne Whitaker, Senior Vice President, International Pharmaceutical Company

WHY ATTEND THE CERTIFICATION?

During this training you will learn to expand your offerings for teams to include this innovative and proven process. You will play a simulated game within this training to learn how to execute each component and find better answers to traditional challenges.
